General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://www.sciencedomain.org/page/sdi-general-editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Effect the correction suggested in the abstract 2. If the first sentence in the introduction will be retained, give it normal citation 3. The introduction and the literature review are too long. 4. Some parts of the methodology are not necessary for this type of publication. Removing them may not affect the quality of the paper. 5. Check the result for suggested correction 	<ol style="list-style-type: none"> 1. Suggestions accepted and corrected accordingly 2. First sentence removed 3. The literature section reduced and made more comprehensive 4. Information on sample determination removed as suggested. Suggestion to remove data analyses entirely was rejected since it may have major effect on the manuscript. However, this was summarised and the mathematical presentations limited 5. Suggestions upheld. Figures in cedis presented before figures in dollar
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
