

SDI Review Form 1.6

Journal Name:	International Journal of Pathogen Research
Manuscript Number:	Ms_IJPR_44048
Title of the Manuscript:	Comparative Evaluation of Combinations of Extracts of Euphorbia abyssinica and Coleus species for Antifungal Effects
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. The number of experiments is only one. I could not distinguish whether the result is reliable or not. 2. The comparative antifungal drug is unappropriated. Voriconazole gives no fungicide activity against <i>Candida sp.</i>, and also no evidence in other tested fungi. The authors may reconsider the positive control otherwise this comparison is fault or not reasonable. 3. Citation needed: L35, L37-48, L60-61. There are no citations for supporting their idea in those sentences of introduction. .	The experiment was replicated four times and the mean calculated. The authors disagree with this. Voriconazole is a broad spectrum triazole that is used for a wide range of yeasts and moulds especially for fluconazole resistant Candidiasis. Done
Minor REVISION comments	1. Figure legends of figure 5 to 8 are not completed. Detail information???? 2. Typesetting of discussion and results are miss-matched.	1. Done 2. Done
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
