**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Review the formatting of the article, since some words are missing the correct spacing.</p> <p>Add images of some of the parasites identified in the animals of this study.</p> <p>Review some references;</p> <p><b>Introduction:</b> In the introduction you mention "Many types of helminths can infect amphibians, but many nematodes or roundworms are common helminths that infect egg amphibians to the adult stages and affect a variety of organs and tissues," talk about some examples.</p> <p><b>Materials and Methods:</b> Which statistical analysis was used? Only absolute frequency and relative?</p> <p><b>Results:</b> How many specimens of each species of toad collected? It would be interesting to add graphics in the results to avoid a large volume of text.</p>	<p>Spacing errors have been corrected</p> <p>We would love to add the images but for publication costs. if adding them will not incur extra charges, we shall do</p> <p>References used are relevant to publication. Reviewer may specify which in particular Done</p> <p>Being an investigation on infection, prevalence and intensity of infection were used to describe the results. Details of how the data were generated is in MS</p> <p>Number specimens per species added. Graphics on approval by journal office, though the anurans are not novel, we consider unnecessary.</p>
<b>Minor</b> REVISION comments	Review the formatting of the article, since some words are missing the correct spacing.	Spacing errors have been corrected
<b>Optional/General</b> comments	It would be interesting to add images of some of the parasites identified in the animals of this study.	We would love to add the images but for publication costs. if adding them will not incur extra charges, we shall do

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
