Manuscript Number:	Ms_INDJ_48262
Title of the Manuscript:	Movement disorder early in the presentation of two children with Subacute Sclerosing PanEncephalitis
Type of the Article	Case study

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Please provide brain MRI in case 1.</li> <li>2. The author said that "Afterwards the rituximab was not given anymore because of CD90 declining to zero". Is "CD90" correct? or "CD20"?</li> <li>3. The author said that "In both cases the MRI findings are not remarkable.". However, the author also reported that "Brain MRI showed high T2 signal bilateral parieto-occipital and peri trigonal regions with contrast enhancement" in case 1. Please explain.</li> <li>4. Did the author check autoimmune encephalitis markers in these two patients?</li> </ol>	<p>Unfortunately, the 1<sup>st</sup> case presented to us 15 years back, and the brain MRI was no included in the new database, apologize for that, but I will bring MRI for case number 2.</p> <p>CD20.</p> <p>We correct this sentence.</p> <p>Not the 1<sup>st</sup> case, but we did in the second one, and it was unremarkable, because the 1<sup>st</sup> case presented with myoclonic jerks and EEG showed periodic pattern so we highly suspect SSPE, and we immediately check the anti-body titre.</p>
<b>Minor</b> REVISION comments	Several spelling errors such as in title "PanEncephalitis", central "precious" puberty, "chore athetotic", "methylprednsone", "oro-bucal" area, and grammar errors.	We are working to correct these errors.
<b>Optional/General</b> comments
