

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_47673
Title of the Manuscript:	Determination of Antioxidant activity of Leave extracts of Albizia chevaieri using free Radical Scavenging activity assay
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Responses to my comments/observations are not the responses to the observed limitations of the study, they are just justifications or arguments. There is a lack of disposition of author for the improvement of the manuscript.	The authors have tried to improve the manuscript a lot, however some of the study are still carried out in future in detail to verify the conclusion
