

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_48458
Title of the Manuscript:	ENUMERATION OF POLYHYDROXYALKANOATE (PHA) PRODUCING BACTERIA FROM DAIRY SEWAGE SAMPLES
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The draft provides a modified nutrient agar to detect PHA producers directly. The work is well designed and well organised. The result is convinced. It seemed that the properties of dairy sewage samples have little effect on the PHA producers. Please indicate why chose these three dairy sewage samples. It is better to describe the comparison of the modified nutrient agar and traditional nutrient agar in the draft.	Thanks for reviewing and for valuable comments. Three dairies were selected based on their capacity , production of dairy products . The composition of Modified nutrient agar and traditional nutrient agar were same but Modified nutrient agar extra enriched with 2% glucose and 0.3% sudan black
Minor REVISION comments	What is TBC? Give full name when first mentioned.	Total Bacterial Count. Corrected in article by giving full name
Optional/General comments	The draft is suitable for publication on the Journal.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
