

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_48458
Title of the Manuscript:	ENUMERATION OF POLYHYDROXYALKANOATE (PHA) PRODUCING BACTERIA FROM DAIRY SEWAGE SAMPLES
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This manuscript is not good enough as original research paper. I recommend to reject this manuscript because of data present in this manuscript is less and lack of importance data to confirmed that PHA was successfully synthesis from dairy sewage.</p> <p>However, I have some comments for improvement as follow:</p> <ol style="list-style-type: none"> 1. Data for confirmed that PHA has successfully synthesis should present in this manuscript. Only data in table 2 is not enough. Figure of colonies in agar media is needed. 2. To confirmed that PHA was successfully synthesis, characterization of as-prepared PHA is necessary (Such as molecular weight, chemical structure or thermal properties) 3. This manuscript is focus on different dairy sewage on production of PHA but no discussion of effect of different properties of dairy sewage on PHA production. 	Thanks for reviewing and for valuable comments. It is preliminary study in further articles, extraction and characterization will be taken up.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
