

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	Ms_JABB_46842
Title of the Manuscript:	PRODUCTION OF BIOETHANOL FROM SELECTED LIGNOCELLULOSIC AGROWASTES
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	While I appreciate the care with which it was carried out, I have several limitations. Reference and writing may be improved. Based on mass balance (containing byproducts), its yield (based on theoretical efficiency) may be rechecked and evaluated. In addition, both scale-up and optimization may be considered. Furthermore, compared with previous ones, the difference of hydrolytic performance may be meaningful. Lastly, as compared to well-known fungal pre-treatment systems (for bioethanol), both potential and practical value may be checked.	Reference and writing has improved , the introduction has increased from 9 lines to 47 lines with more literatures added .  References has now increased from 21 to 45, an improvement to the previous one cited, its yield based on mass balance, efficiency, scale up and optimization has been rechecked, especially compared with hydrolytic performance related to reducing sugar yield from the result.

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
