General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>A good and relatively innovative paper very much fit for publication by JAERI. The methodology is well mastered, the findings are good and the the discussion of findings well done. However, the following comment and evaluation should be looked into:</p> <p>It is imperative to state the statistical software used for data analysis. This will make it possible for another researcher to replicate the study or to verify if the software used was appropriate enough to analyze the data.</p>	All corrections modifications done.
Minor REVISION comments		
Optional/General comments	A good and relatively novel paper that is almost ready for publication should the minor correction highlighted above is incorporated into the study.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes. Kindly please write down the ethical issues here in details)
