**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	NA	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>In table 5, why 1% significance level is taken? In social sciences, we generally take .05 level of significance.</li> <li>Many places, sentences are too long which may create difficulty for the reader in understanding the context.</li> </ol>	<p>Agreed, but been significant at 1% is an indication that the coefficient is also significant at 5% and even 10% levels. Here, 1% level shows the level of accuracy and the chance of being true.</p> <p>Agreed</p>
<b>Optional/General</b> comments	Paper is well structured and organized. Literature review is exhaustive. Appropriate Statistical tools are used in the study.	Thank you

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
