<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The results are simple and straight forward, no new technique will be implemented.</li> <li>2. Its better to put all equation number to the right-hand-side of the equation.</li> <li>3. Both tables and figures reflect same conclusion. It's better to include either tables or figures in the manuscript instead of both.</li> <li>4. Put tables or figures in the running manuscript instead of Appendix.</li> </ol>	<ol style="list-style-type: none"> <li>1. Yes, I am agreed with the reviewer's comments. No doubt the results are simple and straightforward but according to my point of view, the mathematical derivation of the 3-component mixture of the lifetime models is too much complicated.</li> <li>2. Incorporate all the equation number to the right hand side of the equation.</li> <li>3. Only 3-dimensional figures are included in the manuscript.</li> <li>4. Incorporate the figures in the running manuscript instead of appendix.</li> </ol>
