SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	**Ms_JAMCS_48716**
Title of the Manuscript:	**An Investigation of the Use of Eigenvalues in Human Face Modeling for Recognition Tasks**
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	Please explain the rationale of using only the EVLLS-2nd filter.	Thanks a lot for your valuable comments. After the first three experiments, where the results are represented in table 1, 2, and 3, respectively, In order to improve the results of the proposed method, additional five filters were tested, and they are listed from a – e (line 168-176). LLS-2nd is one of them, the second one between the proposed five filters. So I found that using eigenvalue (EV) with this filter (LLS-2nd **)** as (EVLLS-2nd) improved the results for the database Yale face_B and the results presented in Table 5.
Optional/General comments	Few typo errors must be corrected. Presenting the Table 5 as graphic might enrich the paper	I agree with you, but because there are just three results for each method, I think the table is clear enough to represent the results. **P.S.: All corrections were highlighted in yellow in the origin text.**

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
