PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It is a very interesting article and can contribute a lot to the practice of breastfeeding. I suggest that the authors make the following corrections: 1. Materials and Methods: What is PHC? 2. Results: all tables should be presented with 236 participants. 3. Table 1. Include Years in variable "age" Table 2: include caption = SAR 4. Discussion: the references must be included in the order of entry in the text. 5. References: all references must be reviewed and submitted in accordance with the journal's standards.	Thanks for valuable comments 1-PHC : primary health centers 2-total of participants was 499 but not all hear about self expressed breast (156) And who have knowledge(343) and had practice (236) 3 – agreed & Revised 4- agreed & Revised 5-agreed & Revised
Minor REVISION comments		
Optional/General comments		

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
