

SDI Review Form 1.6

Journal Name:	Journal of Energy Research and Reviews
Manuscript Number:	Ms_JENRR_48508
Title of the Manuscript:	Effects of High Temperature in the Combustion Chamber of a Drop Tube Furnace (DTF) for Different Thermochemical Processes
Type of the Article	Original Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1) The manuscript contains grammatical mistakes that need to be corrected</p> <p>2) No justification why those five biomasses are chosen</p> <p>3) Statements of the objectives are missing.</p>	<p>1) All the reviewers' suggestions were made.</p> <p>2) Brazil is a country with continental dimensions, so we try to map it from the view point of its main biomasses. This information was added to the text.</p> <p>3) The objectives were corrected.</p>
Minor REVISION comments	It is possible that the temperature variations are contributed by moisture content more than other factors stated.	This information was added to the manuscript.
Optional/General comments	The manuscript is technically healthy.	Thank you very much!!!

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
