EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>I recommend the authors to have at least ten references , mainly from recent years. Besides, the english remains poor.</p>	<p>This idea has not been made before in previous research but it is inspired by the researcher. The suggested models in this paper are modification for the models introduced by (Elrefaey et al. 2018).</p> <p>The researcher also dealt with the application aspect in a large part of the research and the results of this application, so the references are few, but the researcher was reviewed for research and the addition of some books as references is related to the subjects this study.</p>
