**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The paper is well write, however the sample size is small.</p> <p><b>C1-</b> The authors write that,117 patients take corticosteroid, no difference in anthropometric parameter compared to controls ,however, why the authors did not classified it as oral and system user and compare according ,also according to the ,dose ,it may be significant if you classified according to route of administration and dose Please do it</p> <p><b>C2</b> The authors classified the asthma into mild intermittent and mild persist .please compare between the two groups regarding the anthropometric parameter</p>	<p>This paper is based on preliminary dataset. Readers are requested to consider this paper as preliminary research article. Authors are aware that a bigger sample size is required to get a scientifically established interpretation. Readers are requested to use the conclusion of this paper judiciously as sample size is smaller. Authors also recommend bigger sample size for similar future studies.</p>
<b>Minor</b> REVISION comments	<p><b>C1</b> The title Anthropometric parameters of asthmatic children and the relationship of childhood asthma with height, weight and body mass index The title contains two sentences with the same meaning . It is better to write Anthropometric parameters in asthmatic children or The relationship of childhood asthma with height, weight and body mass index</p> <p><b>C2</b> The authors write that ,they used Anova test in statistical methods ,while the results did not contain any test done by Anova .????</p>	<p>Title modified</p> <p>Done</p>
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
