

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Scientific Research and Reports</a>
Manuscript Number:	Ms_JSRR_48601
Title of the Manuscript:	Phytochemical study and evaluation of the biological activity of anorectic plants used in the Seno province (Burkina Faso).
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	write if the extracts were administered once or several times explain why a dose of 3000 mg / kg was used and not another in figure 5 put the meaning of the letters a, b, c and d include the positive control (galantamine) in figure 3	Thanks for the correction  Mice received a single dose of 3000 mg / kg once at the beginning of the experiment  According to the method described by OECD 2001, a single dose of 3000 mg / kg can be used to determine the acute toxicity of the extracts. That's why we used this dose.
<b>Minor</b> REVISION comments	place images of the species used	The images of the plants studied were placed in the manuscript.
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
