

SDI Review Form 1.6

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_48930
Title of the Manuscript:	Scientific and technical experiment for manufacturing silage in Jordan
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript needs serious re-writing. I have made some suggestion on the sent manuscript. It would be good to follow the common separation of the text in 'Introduction; Material and Method; Results and Discussion' The experiment on definition of crude protein should be described, too.	Your suggestion is great in case of submitted article as a research article, not as a short scientific note. The note could be written briefly and directly to observe the reader with a result not with a methodology or research issues. The literature extended by adding four modern references and converting the draft to short research article. However, regarding changes such as Figure instead of graph, and crude protein definition, those changes will be modified in reviewed context draft.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
