PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The manuscript is in need language editing before moving forward. Overall, the manuscript need improved. Some parts of the manuscript are simply re-written accounts of previous papers. In other parts, the authors fail to adequately reference their claims and statements, e.g., line 273.</p> <p>It is not clear why the authors include a 'Methodology' section in the abstract, especially when the methodology repeats the aims of the review stated before.</p> <p>Line 54: The authors list a number of reasons for drug use but the authors fail to quote any references that support their claim. Since this is a review, the authors need to find papers that they can reference for any statement in the paper.</p>	
Minor REVISION comments	<p>Abstract: change ' to broader ' to ' to broaden '</p>	
Optional/General comments	<p>The authors list 16 principles that are supposed to help with preventing drug abuse. Based on the literature references, the principles are old and, the authors have not generated or quoted any innovative or new suggestions to prevent drug abuse.</p>
