

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Food Science Journal
Manuscript Number:	Ms_AFSJ_45699
Title of the Manuscript:	Phytochemical Screening and Antioxidant Properties of Coagulants and Soft cheese Produced from Goat milk using Dfferent Biocoagulants of Plant Origin
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The manuscript has been improved. Most of the points raised in the review of the first version have been addressed. Analytical methods and protocols are described with further details. In addition, authors have written new paragraphs accounting for the objectives of the study and the search of new biocoagulants that can be used in the preparation of soft cheese from goat milk.
