**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Reporting clinical data from a tropical hospital is always important and interesting, but further information requested for better understanding the situation:</p> <ol style="list-style-type: none"> <li>1. What is the number of the beds in this hospital, which is situated actually in a major town</li> <li>2. How many children admitted/discharged in the given year (2015) and what is the percentage of the diarrheal cases compared to the total number admitted</li> <li>3. It was interesting to learn that no cholera cases were recorded</li> <li>4. There is no any information of the treatment applied in those cases (oral/parenteral fluid replacement only, or antibiotics was provided along with the fluid replacement in certain cases or not)</li> </ol>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
