

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	2019/AJMAH/48794
Title of the Manuscript:	Comparative Analysis of Health Risk Associated with Occupational Exposure to Formaldehyde in Public and Private Mortuaries in Rivers State, Nigeria
Type of Article:	

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Remove this sentence "A lot of hazards and health risk are associated with the operations of mortuaries." at line 35.</p> <p>Remove the title of reference paper mentioned in the manuscript,</p> <p>Re-write reference numbers inside the main text as follows " [23-25]" if you need to state all references from 23 to 25 .</p> <p>"23, 25" if you need to mention the two references 23 and 25. So at line 57, "[7], [8], [9])." Is wrong and should be " [7-9]".</p> <p>At line 76, "the aim....WAS..." not "is". Similarly "attempted".</p> <p>Start the discussion from line 366 , remove previous paragraphs to the results section. In general, describing data should be in results section and comments on data with comparisons with similar research should be in discussion section.</p> <p>Conclusions and recommendations should be in the past tense. Facts should be in present tense. Aim and methods should be in the past.</p>
