

SDI Review Form 1.6

Journal Name:	Asian Journal of Geological Research
Manuscript Number:	Ms_ AJOGER_46744
Title of the Manuscript:	The characterization of Talcose rocks by X-Ray Diffraction in Kagara Area (Sheet 142 SE and Part of Sheet 142 SW) North Central, Nigeria
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is very interesting and well structured, containing precise and direct important information on the geological aspects approached for Talcose occurrences. However, the quality of some Figures are needed to suit the manuscript in its final form, such as, Figures 1 and 3, besides the X-Ray patterns, because the sharpness is greatly impaired. Once these corrections are made, I am for the approval of the manuscript to be published.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
