<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>The idea of the paper is interesting and I would encourage the authors to continue this important research. I support the work and believe that it can be recommended for publication.</p> <p>The main remarks:</p> <ol style="list-style-type: none"> <li>1. The sample chosen is far too small to give conclusive results;</li> <li>2. The results presentation are ok, but the supporting discussion enough lacks bibliographic support;</li> <li>3. You must the literature review should be further developed to be tailored to the chosen model (regression model) and the conclusions should be more and consistent</li> <li>4. Low level of originality of the discussed issue and the chosen method. An old model applied on this case study is not considered a new and original contribution.</li> </ol>
