

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Research in Medical and Pharmaceutical Sciences</a>
Manuscript Number:	Ms_AJRIMPS_46121
Title of the Manuscript:	THE EFFECT OF ETHANOLIC EXTRACT OF TRIDAX PROCUMBENS ON POTASSIUM BROMATE INDUCED TOXICITY IN THE KIDNEY OF WISTAR RATS.
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>Line 9:</b> Nephrotoxicity</p> <p><b>Line 12:</b> Wistar not "wistar" Effect this corrections in subsequent sections below containing "wistar"</p> <p><b>Line 14:</b> Write as "100 mg/kg" not as "100mg/kg". There should be a space before all units except percentages. Apply this to all values of such in this manuscript.</p> <p><b>Line 26:</b> Replace with "produced"</p> <p><b>Line 27:</b> Add "Wistar rats" as one of the key words. Remove "weight gain"</p> <p><b>Line 52:</b> delete</p> <p><b>Line 56-58:</b> What is the relationship between potassium bromate and Tridax procumbens in this study? Why did you decide to use Tridax procumbens against Potassium bromate induce nephrotoxicity. THIS MUST BE CLEARLY JUSTIFIED</p> <p><b>Line 69:</b> Where is the Voucher number of the identified plant ?</p> <p><b>Line 84:</b> What prompted the selection of 300 mg/kg of Tridax procumbens for the study? How did you arrive at this dose?</p> <p><b>Line 109-110 (Table 1):</b> You are supposed to use student (paired sample) t-test to compare between initial and final body weight. One way ANOVA is used when comparing above 3 variables (groups).</p> <p><b>Line 160:</b> Vitamin E from which source?</p> <p><b>Line 167:</b> Based on your findings, what would you recommend the populace to do with Tridax procumbens? THIS MUST BE CLERLY STATETD.</p>	
<b>Minor</b> REVISION comments	Nil	
<b>Optional/General</b> comments	Rational/justification for using Tridax procumbens against Potassium bromate induced nephrotoxicity should be provided clearly.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
