

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Research Journal of Mathematics</a>
Manuscript Number:	Ms_ARJOM_49254
Title of the Manuscript:	A Novel Method for Optimizing Fractional Grey Prediction Model
Type of the Article	Method Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This article proposes a new method for Optimizing Fractional Grey Prediction Model. The concept is good but the abstract could have been a bit more reader-friendly and so blunt as it is. A small introduction has to exist as the first sentence before proceeding to the existing and proposed models. The real introduction is good but can be shortened a bit. The following parts of the article are satisfactory and commendable. The 'example analysis' is nice and makes the paper more understandable. Conclusion can be a more elaborative to make the paper satisfactory in all angles.	
<b>Minor</b> REVISION comments	Small changes as quoted above will make the paper attractive.	
<b>Optional/General</b> comments	NONE	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

**Reviewer Details:**
