PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The spell check is still required. There are still spelling and technical errors thorough the text and in the tables that should be corrected before the publishing of the manuscript.</p> <p>I still think the better discussion about the mobility of the investigated metals in dependence of the soil pH is necessary. The Authors discussed about the impact of pH on the As mobility but not on the other investigated metals.</p>
