**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Abstract:</b> Authors should review the tenses used. Use past tense where necessary. Also, mentioning that the method is/was cost effective which is outside the scope of your study does not augur well. <b>Check and correct the number of your subheadings.</b> It is proper to write "mL" instead of "ml". Always give a space before addition units to actual values. <b>Report in past tense when outlining the methods employed.</b> <b>In your discussion, there was too much repetition of some words such as "statistically". Your discussion should be presented in a more scientific manner and therefore must be revisit.</b> <b>Authors are advised to revisit and look at the overall grammatical errors in the manuscript. You may download "grammarly" application for assistance.</b>	
<b>Minor</b> REVISION comments	Description of study area: Needs revisiting and reconstruction	
<b>Optional/General</b> comments
