**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>English language should be revised Kidney function would be of great importance Antioxidant enzymes should be also measured</b>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	The dose that the workers were exposed to was not measured and could vary according to their workplace on the production line that could represent a drawback in the paper so the workers sample could be divided according to their place on the production line so it will give more precise data and the statistics would be better An estimate of the daily exposure on each workplace will give an average yearly exposure and would help to more precaution.	

**Reviewer Details:**
