## **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The research in this paper is worthy of affirmation. By combing the kitchen sink system from 1973 to 2016, the author found that new technologies and new ideas were gradually applied in the sink system in the continuous improvement. It also provides a reference for the design and development of new flume in the future.  However this work presents deficiencies that need be corrected for a future publication in a scientific journal:  1.To indicate the research limitations and formulate trends for future research.  2.Question sentences should be used for research conclusions?  3.
