

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Blood Research &amp; Reviews</a>
Manuscript Number:	Ms_IBRR_48732
Title of the Manuscript:	Relationship among HbA1c and some Markers of Endothelial Damage in type 2 Diabetes Mellitus
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This is a very interesting paper correlating markers like von Willebrand and PAI-1 with levels of HbA1c in patients with type 2 DM. The authors manage to show that there is a positive correlation that can lead to higher risk of coronary heart disease. The method is described in detail and comprehensively. The authors made all the evidence on which the study is based clear and fully available in the manuscript. I accept this manuscript for publication as it is.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

**Reviewer Details:**

Name:	Maria Demetriou
Department, University & Country	Metaxa Memorial Anticancer Hospital, Greece
