After the first sentence please add the text below. "Salinity is a limiting environmental factor for plant production, and is becoming more prevalent as the intensity of agriculture increases. The effects of salinity stress are similar to the effects of drought stress. All studies conducted until now have proved that the increasing water stress decreases the germination proportion and plant growth speed (Yigit et al., 2016; Sevik ant Erturk, 2015; Sevik and Cetin, 2015; Topacoglu et al., 2016)</p> <p>Please add te references below.
