PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	Update references to the last ten years, but feel free to acknowledge timeless, classical references and key papers. When possible, move/insert bibliographic citations to/at the end of the paragraphs (the subject is more important than the author). Use the same procedure regarding citations of Figures and Tables. See line 159/160 (Our findings are similar to those reported by Thapar and Singh (2005)). Eliminate the word "significant" or "no-significant" when discussing statistical differences or effects. Details of the statistical design and analysis should be presented in the M&M subtitle, level of significance included. See line 146 and 184.	
Minor REVISION comments	Avoid citing congress or workshop abstracts, technical articles, dissertations, and theses. See EVANS, 1997.	
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
