

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">International Journal of TROPICAL DISEASE &amp; Health</a>
Manuscript Number:	2019/IJTDH/48549
Title of the Manuscript:	In vivo antifibrotic potential of extracts of <i>Acanthospermum hispidum</i> DC. evaluated in wistar rats using diethylnitrosamine
Type of Article:	Original Research Article

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I have recommended that the authors add information about their methods to conform to standards for scientific transparency. The authors have provided more information in their response, but little of this information is found in the revised manuscript. Please add the requested information to the manuscript rather than in the juvenile response to the evaluator.</p>	

**Reviewer Details:**

Name:	<i>Michael Guarnieri.</i>
Department, University & Country	<i>USA</i>
