**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Please address the possibility that infection with parasites may have come from institutional food in psychiatric hospitals and/or may be the result of poverty, a condition intimately linked with mental illness.</p> <p>Please do not refer to patients as "mental" or as "mental cases". Please do not refer to general population study participants as "normal"</p> <p>Was treatment attempted?</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The gut-brain connection is increasingly being investigated so this is a timely, well written paper.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
