

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_45186
Title of the Manuscript:	Study of the Inhibitive Property of Azadirachta indica (Neem Tree) Gum on Mild Steel Corrosion in Various Acidic Media
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I recommend that the changes listed below need to be made before considering publication.</p> <p>[1] Authors should be consistent with their referencing style in line with the journal's format</p> <p>[2] Please show the values of r^2 "correlation coefficient" in your Langmuir isotherm plots as a proof to the values in Table 3.</p>	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Only one technique is not sufficient for this kind of study, you should use other techniques like electrochemical impedance spectroscopy, potentiodynamic polarization, ... 2. Characterisation studies like SEM, EDX, FT-IR are also important 3. Why use same concentration (1 M) for all the acids? 4. Articles on Azadirachta indica (Neem Tree) Gum as corrosion inhibitor for mild steel in these acids have already been published. Check properly to make a difference... 	
Optional/General comments	<ul style="list-style-type: none"> • Overall, the manuscript would be appropriate to be published with some additional data as mentioned above
