

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Research Journal of Pure and Applied Chemistry</a>
Manuscript Number:	Ms_IRJPAC_48458
Title of the Manuscript:	ENUMERATION OF POLYHYDROXYALKANOATE (PHA) PRODUCING BACTERIA FROM DAIRY SEWAGE SAMPLES
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>This manuscript is not good enough as original research paper. I recommend to reject this manuscript because of data present in this manuscript is less and lack of importance data to confirmed that PHA was successfully synthesis from dairy sewage.</p> <p>However, I have some comments for improvement as follow:</p> <ol style="list-style-type: none"> <li>1. Data for confirmed that PHA has successfully synthesis should present in this manuscript. Only data in table 2 is not enough. Figure of colonies in agar media is needed.</li> <li>2. To confirmed that PHA was successfully synthesis, characterization of as-prepared PHA is necessary (Such as molecular weight, chemical structure or thermal properties)</li> <li>3. This manuscript is focus on different dairy sewage on production of PHA but no discussion of effect of different properties of dairy sewage on PHA production.</li> </ol>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
