Minor REVISION comments		
Optional/General comments	Author describing and analysing in his article titled '**Comparison of the effectiveness of Alum, Chlorine, Sodium Hypochlorite and Moringa's seeds in reducing bacterial loads in the treatment of restaurant wastewater**' is **Excellent**. With best of my knowledge, some general points find out and noted down below. • Author has clearly specified Abstract and other information in universal format but Research objectivises are not specified • Author used various statistical tools for analysing the Research Analysis. • Hence, Research results are accurate • Article design and analysing pattern is very good. But too many paragraphs inserted and sentences, Tables constructions are not looking good • Sufficient references are included • This article is more useful to potential researchers who are taken research study on Waste Management topics. Finally, this article is graded **Excellent**.
