General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> • In the introduction part: there is no reference used at all???? • Replace the word arm with the word group. • In the discussion part: you should interpret your data and identify which previous literature is with or against your results, beside the discussion is too long need to be shorten with focusing on the aim of your study. • You should explain why hypo-fractionation regimen is preferred at your facility. Is it due to the minor adverse effects, economical burden or other reasons as there was no difference from the traditional one? 	
Minor REVISION comments	There are some misspelling words. Some repeated sentences were in the discussion.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
