Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The Authors should give proper description of the Agro ecological location and brief climate of the experimental site. Also, the referencing style has to be given serious attention. In some cases, names of co – authors and Journal cited were not indicated	
<b>Minor</b> REVISION comments	Abstract should not be divided into various headings. The authors should only bear those headings in mind. Material should be pluralised under materials and methods since several items were used for the trials	
<b>Optional/General</b> comments	The sub heading under Materials and methods is not necessary	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

**Reviewer Details:**
