

SDI Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_49157
Title of the Manuscript:	Data Mining and Statistical Analysis for Available Budget Allocation Preprocurement of Manufacturing Equipment
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper is mainly concerned with mining the data related to pre-procurement of manufacturing equipment and allocation of budget for the work. The introduction presented satisfactorily, but could have been better if some part of the rather large abstract were removed and included in the introduction part. The rules, algorithms, data and other methodologies used are presented in a reasonably.	
Minor REVISION comments	Conclusion should be a more elaborated and abstract can be reduced to bring up a good presentation to the work done.	
Optional/General comments	The appendices are excellent and eye-catching.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
