

SDI Review Form 1.6

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_48249
Title of the Manuscript:	EVALUATING THE RELATIONSHIP BETWEEN RAINFALL, MAXIMUM TEMPERATURE AND CONVECTIVE SYSTEMS OVER SELECTED CITIES IN NIGERIA
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The analysis should be revised; statistically correlation value (r) =1 is not realistic or even impossible.</p> <p>Pay attention to the process: logically, high temperature leads to convective system which marks with thunderstorm and squall, then rainfall Therefore, the correaltion should be between max temerature to thunderstorm; then thunderstorm to rainfall</p> <p>This type of study shoul come to a conclusion could maximum temperature be a preceeding signal of rainfall season?</p>	
Minor REVISION comments	Some typo	
Optional/General comments	Major revision	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
