PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The idea of this paper is interesting. Points of reference and improvement: 1. The paper does not sufficiently describe the methodology in a scientifically appropriate way 2. References are limited and in some instances the relation from the text to the indicated reference is not clear. 3. In the Introduction a more extensive and up-to-date overview on the composition of wastewater in general, and domestic sewage discharged from a residential area. 4. More details on SBR meaning of the name and comparison with other treatment methods 5. In Figure 1-4 the meaning of the stages must be explained	
Minor REVISION comments	English language and style are fine/minor spell check required	
Optional/General comments
