

SDI Review Form 1.6

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_48233
Title of the Manuscript:	ISOLATION AND CHARACTERIZATION OF PLASMID-BEARING MULTIPLE ANTIBIOTIC RESISTANCE BACTERIA FROM DIFFERENT AQUATIC SOURCES IN AKURE, NIGERIA
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There was no test for pathogenicity mentioned in the entire work. The +/- plasmids presence should not be generalized for both pathogenicity and resistance. I thought I would hear about <i>Mec A</i> genes.	
Minor REVISION comments	The areas have been highlighted in comments on the manuscript	
Optional/General comments	It is a nice work, I will suggest a microbial risk based assessment for further studies. There is a mathematical basis of arriving at a supposed sample size	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
