

SDI Review Form 1.6

Journal Name:	Microbiology Research Journal International
Manuscript Number:	Ms_MRJI_48471
Title of the Manuscript:	ANTIMALARIAL DRUG RESISTANCE: AN EXISTENTIAL BURDEN FOR THE DEVELOPING WORLD
Type of the Article	REVIEW ARTICLE

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a very good research topic, because malaria has become an endemic disease especially in developing countries with high mortality rates, it has become a life threatening disease among under aged group. It is very crucial to be exploring such areas in research.	
Minor REVISION comments	The author has stated the factors that lead to drug resistance but there was nothing significant under the Resistance profile of commonly used antimalarial drugs	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
