Manuscript Number:	Ms_SAJRM_48975
Title of the Manuscript:	Studies on the Antibacterial Profile of Brysocarpus coccineus and Zanthoxylum piperitum
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - The study is preliminary but shows some interesting and well-performed experiments on microbiology. - The phytochemical approach is obsolete, but is presented in a clean way and does not compromise the biological studies. - Abstract does not need to present the text on statistical similarities, only the significance of the results. - Conclusion should be related only to the research achievements, not literature. - Some tables and graphics should be excluded and the results grouped. - Italics on plan name, correct unities format and some minor adjustments should be performed on text with a carefully review. 	
Minor REVISION comments		
Optional/General comments		

PART 2:

PART 2:
