**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The author has submitted an interesting article which nevertheless leaves some questions. The author did not fully express his attitude towards the migration of the rural population to the cities of China and did not present the economic model of this phenomenon.	
<b>Minor</b> REVISION comments	It is not clear where the author got the data for building Fig. 1 and Fig. 2. It is not clear what role Fig.6-Fig.11 play, because this is just an illustrative material. The conclusions made by the author are trivial and in no way agree with the main text of the article.	
<b>Optional/General</b> comments	The recommendations are very general. A radical revision of the text is necessary.	

**PART 2:**
