

Editor's Comment:

The manuscript suits the demands of the journal but possesses some drawbacks not indicated by the reviewers:

- 1) some grammar mistakes are corrected and indicated yellow in the text
- 2) "Field survey, 2016" cited under the Tables should be written in reference list
- 3) I am not sure that the last column of Table 1 should be included also in Tables 2 and 3. To exclude iteration may be it will be better to delete the column from Tables 2, 3?
- 4) no data what is plotted on the ordinate axis in Fig.
