

**Editor's Comment:**

"My decision is to accept the submission for possible publication in AJAEES, but after considering following suggestions. Authors cannot just copy/cut and paste the figures already published in cited reports and journal articles. They must reproduce by their own with appropriate references. Secondly, authors have not given their objectives/methodology so that it can be characterized as scientific note. Authors are advised to cross check the in-text citations and listed references carefully."
