

Editor's Comment:

Concerning the manuscript entitled: **Comparative Study on the Proximate Composition, Functional and Sensory Properties of Turmeric (*Curcuma longa*) and Pawpaw (*Carica papaya*) Custard Products**

As I went through the response of authors to reviewers comments and by checking the revised manuscript, it is clear that authors responded well to the reviewers comments, and therefore, **this manuscript is to be accepted.**

Note: The title of table 4 is to be written above table not below it.

Editor's Details:

Dr. Nadia Sabry El-Sayed El-Gohary
Associate Professor, Department of Medicinal Chemistry, Faculty of Pharmacy, Mansoura University,
Egypt
